double-edge
blades for
push or pull
cutting

Safety guards

Thumb grooves
for better control
while cutting

Lightweight,
ergonomic handle

Opening to attach
carabiner, lanyard, etc.

The Cardinal Recycling Program: Reduce, Reuse, Recycle

At Cardinal Safety, we're committed to limiting the use of natural resources, preventing pollution, and saving energy, which is why we designed all Cardinal products to be completely recyclable. Simply apply the included return label and we'll take care of the rest.

HANDY TIPS FOR CARDINAL CUTTING

- Always cut banding on an angle leading away from your person.
- Utilize the included tape splitters for simpler tasks, ensuring product safety and prolonging the life of the blade.
- Camber or tilt the cutter for maximum efficiency and precision when cutting.
- Always use caution when using our cutters, regardless of the application.

THE CARDINAL ADVANTAGE

Interested in learning more about our company, our products, and our services? We invite you to visit our website at www.cardinalsafetyco.com by scanning the QR Code below. Here, you can view more detailed information on our products and our recycling program, as well as access additional resources provided for your convenience. You may also contact us at info@cardinalsafetyco.com regarding sample requests or any other inquiries you may have - We are happy to accommodate any of your cutting needs!

- These products are safety cutters, but always be mindful that they contain sharp, professional-grade blades.
- Keep you non-cutting hand out of the path of the blade and be aware of your immediate surroundings when cutting to avoid distraction and injury.
- DO NOT push or pull with excessive force as this may damage the tool and lead to personal injury.
- Abuse or misuse of these products could lead to exposure of the blade, increasing the potential for personal injury -ONLY use our products as intended and advertised.
